Handbook on Sustainable Campus Practices

FOREWORD

“THE EARTH IS WHAT WE ALL HAVE IN COMMON.”

—Wendell Berry

At Fairfield Institute of Management and Technology (FIMT), we believe that education is not only a means to empower minds but also a tool to shape a sustainable future. As an academic institution committed to excellence, innovation, and social responsibility, we recognize our pivotal role in promoting environmental stewardship. In today’s world, where climate change, pollution, and resource depletion pose significant challenges, institutions of higher learning must lead by example.

Guided by the United Nations Sustainable Development Goals (SDGs), FIMT is devoted to aligning its policies, practices, and pedagogy with global efforts to create a more resilient and eco-conscious world. Whether it is through efficient resource management, green campus initiatives, or eco-awareness among students and staff, we aim to make sustainability a visible and lived value within our academic ecosystem.

This Environmental Policy reaffirms our institutional commitment to SDG Goals such as Clean Water and Sanitation (SDG 6), Affordable and Clean Energy (SDG 7), Sustainable Cities and Communities (SDG 11), Responsible Consumption and Production (SDG 12), Climate Action (SDG 13), and Life on Land (SDG 15). It is not just a policy document—it is a roadmap to nurturing an environmentally responsible generation and transforming our campus into a model of sustainable development.

|-----------------------------------|----|
| Introduction | 04 |
| Focus Area | 05 |
| Sustainability Policy | 06 |
| Energy Conservation | 07 |
| Waste Management | 08 |
| Organic Farming | 09 |
| Herb Garden | 10 |
| A Walk through Campus Greenery | 11 |

INTRODUCTION

In an era marked by climate urgency and environmental responsibility, academic institutions must lead by example in promoting sustainability and environmental consciousness. This handbook is a step in that direction - a practical and informative guide that outlines the environmental policy of Fairfield Institute of Management and Technology (FIMT), aligned with the Sustainable Development Goals (SDGs).

With a focus on creating a green and healthy campus, this handbook not only presents our environmental commitments and actionable policies but also captures the spirit of sustainability through vibrant visuals of fruits, vegetables, and nature. These images are more than symbolic - they represent our collective responsibility toward healthy living, biodiversity, and mindful consumption.

FOCUS AREAS

01 Sustainable Campus

Promote energy-efficient practices, reduce carbon footprint, and implement eco-friendly infrastructure across the institution.

02 Waste Management

Encourage waste segregation, recycling of paper, plastic, and e-waste, and minimize single-use materials on campus.

03 Green Practices

Involve faculty, staff, and students in tree plantation drives, kitchen gardening, and green lifestyle campaigns.

04 Eco-Education

Integrate environmental awareness and SDG-based learning into teaching, training, and research activities.

Sustainability Policy

I

Faculty members will integrate environmental topics into their curriculum and actively promote eco-conscious behavior among students. They will also lead and participate in green initiatives on campus.

II

Administrative and support staff will follow sustainable office practices such as minimizing paper usage, conserving electricity, and encouraging reuse and recycling.

III

Institutional leadership will ensure implementation of green policies, allocate resources for sustainability programs, and monitor compliance with environmental standards.

IV

Students will be engaged through environment clubs, awareness drives, and hands-on eco projects aligned with SDGs.

V

Ensure green infrastructure through rainwater harvesting, solar panels, and use of biodegradable materials within campus facilities.

ENERGY CONSERVATION

Use of LED Bulbs

Sensor Based Energy Conservation

Solar Energy

Promotion of Natural Lighting to reduce consumption

WASTE MANAGEMENT

Rainwater Harvesting

Compost Pit

E-Waste Recycle Bin

Organic Farming

Edible greens that we grow on the campus

Guava
Psidium guajava

Ladyfinger / Okra
Abelmoschus esculentus

Green Beans
Phaseolus vulgaris

Bottle Gourd
Lagenaria siceraria

Banana Tree
Musa paradisiaca

Pomegranate
Punica granatum

Herb Garden

Aloe vera
Aloe barbadensis miller

Curry Leaves
Murraya koenigii

Thai Basil
Ocimum basilicum
